- MySQL/NoSQL
- Bootstrap/Bulma
- Heroku
- NextJS
- CSS
- HTML
- Node
- Express
- JavaScript/jQuery
- ReactJS
- Git
- Jest
- TypeScript

PROJECTS

DONUT-FORGET | <https://github.com/laurelthorburn/DONUT-FORGET-TO-REVIEW>

Full stack application utilizing Node.js, Sequelize, MySQL, Handlebars, and Cloudinary. Site allows users to create posts with images, leave comments, and login/logout of their session to keep their data secure by using local storage and cookies.

"React Portfolio" | <https://laurelthorburn.github.io/Laurel-Thorburn-Portfolio/>

Created a responsive, mobile first, single page application portfolio using React.js, EmailJS, and Node. User is able to render an about page, contact page, resume, and projects of Laurel Thorburn.

Weather Dashboard | <https://github.com/laurelthorburn/Weather-Dashboard>

Created a user-friendly weather dashboard that uses a third-party API, openweathermap.org, to fetch weather data and store results in local storage. Results are dynamically created using JavaScript and jQuery and are displayed in cards created by a CSS library, Bootstrap.

EXPERIENCE

Kaiser Permanente: Lead Clinical Audiologist

11/2019 – present

Working with pediatric and adult patients providing diagnostic and rehabilitation services, such as audiological evaluations, hearing aid consultations, and fittings.

Aurora/Cherry Creek Public Schools: Educational Audiologist

07/2017 – 10/2019

Worked with students, ages 0 to 21 years of age, and families of diverse cultures, backgrounds, languages, and disorders providing audiological evaluations and services.

EDUCATION

University Denver (DU), Denver, CO

08/2021 – present
